Laura's Story

Home. It's a sanctuary for many of us. A safe place where we sleep, rest, eat and connect with family.

But just imagine if you weren't sure where you would sleep tonight. Imagine if you were a young teenage girl, traumatised by circumstances beyond your control, with nowhere safe to live and no one to take care of you.

There were 45,000 young people sleeping on the dark streets of Australia last year. 62% of them were female.

Anglicare provides emergency food and care to young people living on the streets and for many young people experiencing homelessness, they only come to Anglicare when they are desperate for food. This is often our first opportunity to extend care to them, and to engage them in other services that can help them stay safe and move towards a better place in life.

Margaret & Kenneth

For over 20 years, Margaret and Kenneth have supported the work of Anglicare.

"Supporting Anglicare is really part of my Christian journey. We're taught by Jesus that we need to give and support our fellow man, and I do. I support people through Anglicare. It helps my faith grow. The blessings I receive by giving are just a wonderful experience in all difference ways" - Margaret

"For me it comes out of personal faith and the exhortation of Christ to go out in to the world to serve. And Anglicare for me is part of my Christian vocation, a very important part really because we're told not necessarily to think of ourselves but to think of others, so for me Anglicare is an integral part of being part of a church and community" - Kenneth
